SHADOW
ENGINEERED TECHNOLOGY

Discover a new outdoor comfort

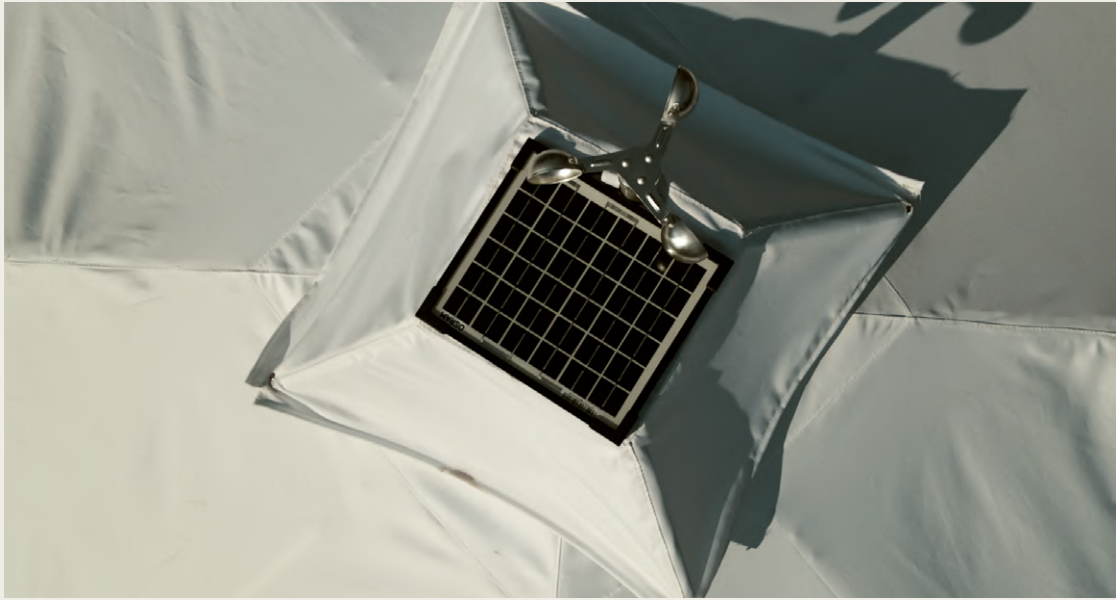

Our parasol is a statement piece fully engineered and crafted in Italy.
Every detail is defined to make a longer lasting shade device.

Features:

- It is made with st/steel 316.
- It recharges itself with a solar panel
- It is equipped with an automatic closing system in case of strong winds
- It rotates 360 degrees
- It is designed with a display to check the battery level and 2 usb plugs in the central mast.
- It can be customized to your specifications , including shape, size, finish and colour.

We tested it in extreme weather environments to guarantee durability and years of worry-free service.
